

OTHER ROOTS

TAKINOAWA

Burdock

Most popular OP burdock in Japan, maintained since the Edo period. Good flavor. 3-4 months to harvest.

KURODA IMPROVED

Carrot

OP. Orange Kuroda type.

SAMURAI RED

Carrot

Elongated conical shape. Beautiful deep red root skin.

TSX-3848 F1

Carrot

Hybrid Kuroda. Heat and humidity tolerant. Non-cracking. Thiram-treated only.

HIDABENI

Turnip

Red skin, white flesh. Heirloom from Takayama. Crisp, sweet and mild.

RED ROUND

Turnip

Popular OP with red skin and creamy white/pink flesh. (stock photo)

SAKURA HEART F1

Turnip

Sweet pink roots with tender texture and bright color that extends into the stems. Strong tops.

TOKYO SILKY SWEET F1

Turnip

Silky delicate texture and amazingly sweet taste. Resistant to White Rust. Roots are sold as Sweet Kabu in produce markets.

TOKYO WHITE CROSS F1

Turnip

For spring and autumn harvest. Consistent and very early.
